ORIENT STAR “Elegant Classic”

ORIENT STAR is an authentic automatic watch developed in 1951 based on the concept of “A Shining Star.” ORIENT WATCH, with technology proven its 65 years of history and its sophisticated design, has developed numerous varieties of models including World Time and Retrograde. The ORIENT STAR series offers a lineup that includes GMT, Retrograde and other models of varying design styles that deliver value worth far more than their price and are winning great acclaim as men’s watches with high quality and high features.

The new ORIENT STAR Elegant Classic is an exquisite model that has pursued a modern refined classic style for adults who enjoy an original lifestyle based on their experience and values.

The three-dimensional Roman index is beautifully positioned on the modern graceful molded dial, which has classical and characteristic hour and minute hands. The double-sided spherical sapphire glass (with non-reflective coating inside) helps increase visibility. The gently curved glass and the cabriole case legs enhance the classical impression while accentuating the universal design. The case, with a size of about 39mm, allows the wearer to use the watch for all occasions. The result is the perfect classical watch model for adult men who are oriented towards authenticity.
