

PRESS INFORMATION for immediate release

ORIENT WATCH 65th Anniversary World Limited Edition Model from ORIENT STAR - OPEN HEART MODERN

ORIENT STAR is a name of authentic mechanical watch collection launched in 1951, which implies a noble image of shining stars in the universe. Since its first appearance on the market, the collection has been chosen and loved by a lot of serious watch enthusiasts because of its variety of functions and traditional design not influenced by the trends of the times. The utmost feature often praised is a harmonized combination of practicality in function and alluring but still elegant look in design.

To commemorate the 65th anniversary of ORIENT WATCH CO., LTD., a limited edition model of ORIENT STAR is now available from the Modern Skeleton line in the limited quantity of 2,000 units worldwide.

As anniversary limited model, the watch is properly equipped with special specifications, such as the case with an elegant and yet masculine look from sharp-cornered and clear-edged body and a bezel in pink-gold color, now loved around the world. The movement, partly revealed through the boldly cut dial, is an in-house and made-in-Japan, which reminds a pleasure of owning a mechanical watch. The dial has a deep dark-brown color and indexes showing an combination of the pink-gold and silver color, which clearly marks it off from ordinary models.

All of them make the watch go well with your business suit.

The limited edition model is embossed with its own serial number on the case back, and comes with a special-designed box.
