### ORIENT WATCH 65th Anniversary World Limited Edition Model from SUN & MOON line

To commemorate the 65th anniversary of ORIENT WATCH, the world limited edition model has been added to the SUN&MOON line, a collection that enjoys great popularity around the globe.

The ORIENT WATCH 65th Anniversary World Limited Model from SUN&MOON line is now available in 3,000 units worldwide, which is a mechanical watch shaped in a traditional design with a modern taste of unique indication of the sun and moon signifying day and night.

The dial is triple-layered for emphasized impression of depth, giving a three-dimensional look to the sun and moon indicator at 10 o'clock position.

On the traditional design of this watch, impressive modern tastes are added with distinct and complex patterns stamped on the dial and with the stylish Roman numeral indexes.

The texture of gold-colored case and the charcoal-brown-colored calf strap naturally create an elegant impression. Besides a push-type three-fold buckle is selected for an easier putting and removing.

The watch comes with a special-designed box and is embossed with its own limited-edition serial number on the case back, which promotes a high-class premium value.
