Orient Star Launches 75th Anniversary Pair Models Featuring Dials Inspired by the Beauty of the Aurora

Orient Star has released two new limited-edition models to commemorate its 75th anniversary: Modern Skeleton in a limited edition of 1,600 pieces, and Classic Semi Skeleton in a limited edition of 800 pieces. Both feature a striking gradation dial inspired by the aurora, and are ideal as matching watches.

This year, a green gradation dial inspired by the aurora was introduced to the newly designed dial of the Contemporary Date's Orient Star 75th anniversary model. Following this, the latest 75th anniversary Modern Skeleton and Classic Semi Skeleton pair models also feature the same mystical colourway.

The Contemporary Collection's Modern Skeleton also introduced a significantly redesigned dial this year, with expanded openwork revealing part of the mechanical movement, a larger small second display, and a new sandblasted finish. With its updated dial, the 75th anniversary Modern Skeleton model conveys the vastness and mystery of the cosmos with greater depth. Viewed through anti-reflective sapphire crystal, the newly designed skeleton structure creates a striking sense of dimension, complemented by green gradations inspired by the shifting colours of the aurora.

The compact Classic Semi Skeleton, which complements the strong presence of the Modern Skeleton, features the same cosmic and aurora-inspired expression—a green gradation transitioning from light at the centre to dark towards the outer edge of the dial. In addition, the rose gold-coloured accents on the rim of the semi skeleton at 9 o'clock, the crown, the dots on the outer periphery of the Roman numerals, and the OS mark all lend a soft touch to this watch.

Both pair models are equipped with an in-house automatic movement offering stable accuracy. The case with reinforced water resistance for everyday use is combined with a metal bracelet made of high-quality stainless steel (SUS316L), with the words "Orient Star 75th Anniversary" and limited-edition serial number engraved on the see-through caseback. These special Orient Star 75th Anniversary models with their unique features are ones that enthusiasts cannot afford to miss.

About Orient Star

For 75 years since its establishment in 1951, Orient Star has embodied an unwavering spirit of exploration and a desire to create watches that are like shining stars. Drawing on traditional craftsmanship applied to mechanical watches, original designs, refined and elegant colour expressions, and in-house mechanical movements, Orient Star continues to deliver unique, made-in-Japan watches to the world.

Joy of Discovery – Orient Star unearths new discoveries in creativity, technology, and beauty.

A Short History

- 1951 Orient Star is created.
- 1957 Orient Star Dynamic* is launched with hour, minute, and second hands on the central axis of the watch.
- 1971 The 46 series movement is created, combining both practicality and high accuracy. This formed the base movement of the Orient Star and Orient brand for 50 years.
- 1991 Mon Bijou* is launched, a skeleton model of high-quality and aesthetic appeal.
- 1996 The power reserve indicator, now an iconic feature of the brand, is integrated into the design.
- 2017 Orient Watch Co. Ltd. merges with [Seiko Epson Corporation](#), a company with a strong watchmaking heritage and focus on precision engineering. Both organisations share a vision for innovation and high-quality design and craftsmanship creating a strong foundation for the future growth of Orient Star.
- 2017 Mechanical Moon Phase, a cosmic timekeeper is launched as a symbol of this new collaboration. This marks a new era of watchmaking for Orient Star brand.

- 2021 The Skeleton is launched mounted with an in-house developed silicon escape wheel for longer power reserve and beauty, incorporating design inspired by the vast universe.
- 2026 Orient Star celebrates its 75th anniversary. A limited edition M34 F8 Date with a meteorite dial is launched bringing the profound mysteries of the universe closer.
